**International Criminal Law in Context** Feb 01 2021 International Criminal Law in Context provides a critical and contextual introduction to the fundamentals of international criminal law. It goes beyond a doctrinal analysis focused on the practice of international tribunals to draw on a variety of perspectives, capturing the complex processes of internationalisation that criminal law has experienced over the past few decades. The book considers international criminal law in context and seeks to account for the political and cultural factors that have influenced - and that continue to influence - this still-emerging body of law. Considering the substance, procedures, objectives, justifications and impacts of international criminal law, it addresses such topics as: \* the history of international criminal law; \* the subjects of international criminal law; \* transitional justice and international criminal justice; \* genocide, crimes against humanity, war crimes and the crime of aggression; \* sexual and gender-based crimes; \* international and hybrid criminal tribunals; \* sentencing under international criminal law; and \* the role of victims in international criminal procedure. The book will appeal to those who want to study international criminal law in a critical and contextualised way. Presenting original research, it will also be of interest to scholars and practitioners already familiar with the main legal and policy issues relating to this body of law.

Criminal Justice in International Society Apr 15 2022 This book adopts a critical criminological approach to analyze the production, representation and role of crime in the emerging international order. It analyzes the role of power and its influence on the dynamics of criminalization at an international level, facilitating an examination of the geopolitics of international criminal justice. Such an approach to crime is well-developed in domestic criminology; however, this critical approach is yet to be used to explore the relationship between power, crime and justice in an international setting. This book brings together contrasting opinions on how courts, prosecutors, judges, NGOs, and other bodies act to reflexively produce the social reality of international justice. In doing this, it bridges the gaps between the fields of sociology, criminology, international relations, political science, and international law to explore the problems and prospects of international criminal justice and illustrate the role of crime and criminalization in a complex, evolving, and contested international society.

**Liberty and Security in Europe** Apr 03 2021 Over recent years, most of the criminal justice systems in Europe have witnessed a tendency to enhance the role of pre-trial inquiries. Different kinds of pre-trial measures have had a heavy impact on the fundamental rights of individuals involved in criminal procedures. This book contains a comparative study of four European countries on pre-trial precautionary measures limiting personal liberty. This comparison is part of two general frameworks concerning the ECtHR case-law and the EU legislation in the field of the right to liberty and security. In its two level approach, the book provides a critical guide for understanding the most significant changes which occurred in the area of liberty and security in the pre-trial phases of criminal proceedings as well as the protection systems developed in Europe both at national and supranational level to face the new challenges of the modern criminal investigation.

*Criminal Law* May 24 2020 This book is an updated abridgement of LaFave and Scott's two volume, Substantive criminal law, in West's criminal practice series.

**Victims of Crime in 22 European Criminal Justice Systems** Mar 22 2020 "The implementation of recommendation (85) 11 of the Council of Europe on the position of the victim in the framework of criminal law and procedure."--T.p.

Principles of German Criminal Procedure Apr 22 2020 The book aims to outline the fundamental aspects of the German approach to criminal procedure; it is meant as a companion volume to the author's earlier publications, 'The German Criminal Code - A Modern English Translation', and 'Principles of German Criminal Law', also with Hart. In appropriate cases, comparisons to English and Welsh law have been drawn. The chapters cover a wide range of issues from setting out the basic procedural principles to presenting the main players in the criminal justice system, pre-trial investigations, the path from indictment to trial judgment, rules of evidence, sentencing, and appeals and post-conviction review. As far as it is useful for an introductory text, the differences between proceedings against adults and juveniles are highlighted. The theoretical discussion of decision-making and style of judgment writing is supported by practical insights through specimen translations of an indictment, a trial judgment and an appellate judgment by the Federal Court of Justice.

**Treatise on International Criminal Law** Jul 18 2022 Since the adoption of the Rome Statute of the International Criminal Court in 1998, international criminal law has rapidly grown in importance. This second edition of the first volume of an acclaimed three-volume Treatise on International Criminal Law deals with the foundations and general part of international criminal law, and general principles of international criminal justice. Taking into account the scholarly literature, not only sources written in English but also in French, German, Italian, Portuguese, and Spanish, the book draws on the author's extensive academic work and practical experience in international criminal law. This second edition of the authoritative volume has been completely revised, updated, and rewritten in some parts. These comprehensive updates ensure that Kai Ambos' Treatise remains an indispensable reference work for academics and practitioners of international criminal law.

**A Critical Introduction to International Criminal Law** Nov 22 2022 Presents theories, practices and critiques alongside each other to engage students, scholars and professionals from multiple fields. This title is also available as Open Access on Cambridge Core.

*Criminal Law Directions* Oct 09 2021 Do your students understand the difference between murder and manslaughter? Are they confused by the concept of mens rea and accessory liability? Criminal Law Directions tackles these and many more questions, introducing students to this exciting area of law. The Directions series has been written with students in mind. The ideal guide as they approach the subject for the first time, this book will help them: DT Gain a complete understanding of the topic: just the right amount of detail conveyed clearly DT Understand the law in context: with scene-setting introductions and highlighted case extracts, the practical importance of the law becomes clear DT Identify when and how to critically evaluate the law: they'll be introduced to the key areas of debate and given the confidence to question the law DT Deepen and test knowledge: visually engaging learning and self-testing features aid understanding and help students tackle assessments with confidence DT Elevate their learning: with the ground-work in place you can aspire to take learning to the next level, with direction provided on how to go further An extensive selection of online resources accompany this text, including: DT Multiple choice questions DT Flashcard glossary DT Guidance on answering the end of chapter exam questions. Guidance on answering the end of

chapter self-test questions  
Additional lecturer resources include:  
DT Diagrams from the text  
DT A test bank of further multiple choice questions

**Text, Cases and Materials on Criminal Law** Nov 10 2021 Text, Cases and Materials on Criminal Law offers a thought-provoking, engaging and comprehensive account of criminal law and its underpinning principles and policies. It includes a range of carefully selected extracts to help you get used to reading court judgments, legislation, official reports and academic writings. Dedicated questions also help you to analyse each extract and develop your critical thinking skills. A range of features, specifically designed to help make your reading as interesting and active as possible, are also available within each chapter including: · Chapter objectives at the start of each chapter, and checklists at the end, so that you know exactly what you need to achieve and are able to assess your progress; · Practical activities, so you can develop your legal skills by practising applying what you have learnt to scenario-based problems; · Self-test questions, which consolidate your understanding by providing an opportunity to apply the material you have studied; · Further reading lists, to enable you to explore key issues in greater depth. This new edition has been fully updated with all major legal developments in the area, including R v Jogee [2016] UKSC 8 and R v Johnson [2016] EWCA Crim 1613 on joint enterprise and the Law Commission's scoping report on non-fatal offences against the person. Stuart Macdonald is Professor of Law at Swansea University. He has taught criminal law for over 15 years and has published widely on criminal justice issues, particularly the regulation of anti-social behaviour and counterterrorism legislation and policy.

**A Treatise on Various Branches of the Criminal Law of Scotland** Oct 29 2020 This is a reproduction of the original artefact. Generally these books are created from careful scans of the original. This allows us to preserve the book accurately and present it in the way the author intended. Since the original versions are generally quite old, there may occasionally be certain imperfections within these reproductions. We're happy to make these classics available again for future generations to enjoy!

*An Introduction to Transnational Criminal Law* Dec 31 2020 National borders are permeable to all types of illicit action and contraband goods, whether it is trafficking humans, body parts, digital information, drugs, weapons, or money. Whilst criminals exist in a borderless world where territorial boundaries allow them to manipulate different markets in illicit goods, the authorities who pursue them can remain constrained inside their own jurisdictions. In a new edition of his ground-breaking work, Boister examines how states must cooperate to tackle some of the greatest security threats in this century so far, analyses to what extent vested interests have determined the course of global policy and law enforcement, and illustrates how responding to transnational crime itself becomes a form of international relations which reorders global political power and becomes, at least in part, an end in itself. Arguing that transnational criminal law is currently geared towards suppressing criminal activity, but is not as committed to ensuring justice, Boister suggests that it might be more strongly influenced by individual moral panics and a desire for criminal retribution than an interest in ensuring a proportional response to offences, protection of human rights, and the preservation of the rule of law.

**Florida Criminal Law** Dec 11 2021 Florida Criminal Law is the first text to provide a comprehensive examination of crimes and defenses in Florida. The book seeks to describe the existing and evolving substantive rules of Florida criminal law and to convey an understanding of these rules and their applications in a variety of situations. Its 25 chapters address topics traditionally taught in criminal law courses, such as the principles of punishment and sentencing, statutory interpretation, the elements of crimes and defenses, homicide, sexual battery, inchoate crimes, and accomplice liability. The book also covers topics frequently omitted from course books, such as assault and battery, arson, burglary, kidnapping, entrapment, and permissive and mandatory presumptions. Readers will gain insights into issues unique to Florida criminal law, including the state's Stand Your Ground Law, its Unborn Victims of Violence Act, and its attempted felony murder statute, as well as emerging areas of legislative change such as human trafficking. The book will be useful to law students and graduates studying for bar exams, academicians, legal scholars, judges, legislators, and the practicing bar. It is also suitable for use in undergraduate criminal law classes and paralegal programs.

**Day Fines in Europe** Mar 26 2023 "With the cooperation of Marianne Breijer, Erasmus University Rotterdam."

**Critical Approaches to International Criminal Law** Oct 21 2022 Drawing on the critical legal tradition, the collection of international scholars gathered in this volume analyse the complicities and limitations of International Criminal Law. This area of law has recently experienced a significant surge in scholarship and public debate; individual criminal accountability is now firmly entrenched in both international law and the international consciousness as a necessary mechanism of responsibility. Critical Approaches to International Criminal Law: An Introduction shifts the debate towards that which has so far been missing from the mainstream discussion: the possible injustices, exclusions, and biases of International Criminal Law. This collection of essays is the first dedicated to the topic of critical approaches to international criminal law. It will be a valuable resource for scholars and students of international criminal law, international law, international legal theory, criminal law, and criminology.

*Principles of Criminal Law* Nov 29 2020

*Fault in Criminal Law* Mar 14 2022 This volume presents a comparative examination of the issue of fault in criminal law. Extant law reveals significant problems in adoption of consistent approaches to doctrinal and theoretical underpinnings of fault liability and culpability thresholds in criminal law. This has been exemplified by a plethora of recent jurisprudential authorities revealing varying degrees of confusion and vacillation. This collection focuses on fault liability for inculcation with contributions from leading specialists from different jurisdictions presenting alternative perspectives. The book addresses three specific elements within the arena of fault, embracing an overarching synergy between them. This structure facilitates an examination of UK provisions, with specialist contributions on domestic law, and in contrasting these provisions against alternative domestic jurisdictions as well as comparative contributions addressing a particularised research grid for content. The comparative chapters provide a wider background of how other legal systems treat a variety of specialised issues relating to fault elements in the context of the criminal law. With contributions from leading experts in the field, the book will be an invaluable resource for researchers, academics, and practitioners working in this area.

History of Criminal Justice Jul 26 2020 Covering criminal justice history on a cross-national basis, this book surveys criminal justice in Western civilization and American life chronologically from ancient times to the present. It is an introduction to the historical problems of crime, law enforcement and penology, set against the background of major historical events and movements. Integrating criminal justice history into the scope of European, British, French and American history, this text provides the opportunity for comparisons of crime and punishment over boundaries of national histories. The text concludes with a chapter that addresses terrorism and homeland security. \* Spans all of western history, and examines the core beliefs about human nature and society that informed the development of criminal justice systems. The fifth edition gives increased coverage of American law enforcement, corrections, and legal systems \* Each chapter is enhanced with supplemental "Timeline," "Time Capsule," and "Featured Outlaw" boxes as well as discussion questions, notes and problems \* Contains discussion questions, notes, learning objectives, key terms lists, biographical vignettes of key historical figures, and "History Today" exercises to engage the reader and encourage critical thinking

*Illicitly Obtained Evidence at the International Criminal Court* Sep 27 2020 This work deals with the exclusion of illicitly obtained evidence at the International Criminal Court. At the level of domestic law, the so-called exclusionary rule has always been a very prominent topic. The reason for this is that the way a court of law deals with tainted evidence pertains to a key aspect of procedural fairness. It concerns the balancing of the right to a fair trial with the interest of society in effective law enforcement. At the international level, however, the subject has not yet been discussed in detail. The present research intends to fill this gap. It provides an overview of the approaches of a number of domestic legal systems as well as of the approaches of the UN ad hoc tribunals and the European Court of Human Rights and uses the different perspectives to develop a version of the exclusionary rule which fits the International Criminal Court. The book is highly recommended for practitioners and researchers in the field of international criminal law and especially the law of international criminal evidence. Petra Viebig is a Public Prosecutor at the Staatsanwaltschaft Hamburg, Germany.

**Governance, Social Control and Legal Reform in China** Aug 07 2021 This book outlines how community sentences and early release options are administered in China. Chen provides empirical insights into the emerging community sector of the Chinese penal system, and illustrates how Chinese criminal courts decide between imprisonment and community sentences. Drawing on interviews with government and non-governmental supervisors, this methodological and rigorous study offers an in-depth discussion of the enforcement of these community sanctions and measures (CSM). By using the CSM reform as an example, this book illustrates the adaptation of Chinese governance and social control. Ultimately, Chen argues that the current model of governance in China (disciplinary governance) cannot guarantee an effective state-agent relationship; it also denies local governments sufficient

legitimacy to secure social stability. Finally, proposing that only the rule of law and an active judiciary can complement these two deficiencies, this book will be of great interest to scholars of criminology, law, and penology, as well as anyone who is interested in how China is held together in a socio-legal sense.

**International Criminal Justice** Jun 17 2022 ÒInternational criminal justice indeed is a crowded field. But this edited collection stands well above the crowd. And it does so with dignity. Through interdisciplinary analysis, the editors skillfully turn shibboleths into intrigues. Theirs is a kaleidoscopic project that scales a gamut of issues: from courtroom discipline, to gender, to the defense, to history. Through vivid deployment of unconventional methods, this edited collection unsettles conventional wisdom. It thereby pushes law and policy toward heartier horizons. Ò ð Mark A. Drumbl, Washington and Lee University, School of Law, US International criminal justice as a discipline throws up numerous conceptual issues, engaging disciplines such as law, politics, history, sociology and psychology, to name but a few. This book addresses themes around international criminal justice from a mixture of traditional and more radical perspectives. While law, and in particular international law, is at the heart of much of the discussion around this topic, history, sociology and politics are invariably infused and, in some aspects of international criminal justice, are predominant elements. Fundamentally the exploration concerns questions of coherence and legitimacy, which are foundational to both the content and application of the discipline, and the book charts an illuminating path through these diverse perspectives. The contributions in this book come from some of the eminent scholars and practitioners in the area, and will provide some profound insight into and an enriched understanding of international criminal justice, helping to advance the field of study. This ambitious and necessary book will appeal to academics and students of international criminal law, international criminal justice, international law, transitional justice and comparative criminal law, as well as practitioners of international criminal law.

**The Protection of the environment through criminal Law** Feb 13 2022 Continuing the AIDP's tradition in examining how to improve the protection of the environment through criminal law, this volume addresses various challenges and scientific concerns in relation to environmental crime. It touches upon a range of topics, from biodiversity to corporate criminal liability to jurisdictional or prosecutorial problems, and explores multiple national and regional enforcement systems, drawing from best practices. It brings together key proceedings of the Second AIDP World Conference on the Protection of the Environment through Criminal Law (Bucharest, May 18-20, 2016) organised by the International Association of Penal Law (AIDP) in collaboration with the Romanian Association of Penal Sciences, the Legal Research Institute of the Romanian Academy of Sciences and the Ecological University of Bucharest.

**A Digest of the Criminal Law (crimes and Punishments)** Apr 27 2023

**The Court of Justice and European Criminal Law** May 16 2022 The aim of this book is to provide an insight into the landmark rulings of the Court of Justice of the European Union (CJEU) in European Criminal Law (ECL). As in other areas of EU law, the decisions of the CJEU have been a driving force for development and integration. By analysing the impact of these leading cases on EU and national law, the book provides a diachronic and multifaceted picture of the Court's approach to criminal law.

**International Criminal Law, Volume 1: Sources, Subjects and Contents** May 04 2021 Volume 1 deals with international crimes. It contains several significant contributions on the theoretical and doctrinal aspects of ICL which precede the five chapters addressing some of the major categories of international crimes. The first two chapters address: the sources and subjects of ICL and its substantive contents. The other five chapters address: Chapter 3: The Crime Against Peace and Aggression (The Crime Against Peace and Aggression: From its Origins to the ICC; The Crime of Aggression and the International Criminal Court); Chapter 4: War Crimes, Crimes Against Humanity & Genocide (Introduction to International Humanitarian Law; Penal Aspects of International Humanitarian Law; Non-International Armed Conflict and Guerilla Warfare; Mercenarism and Contracted Military Services; Customary International Law and Weapons Control; Genocide; Crimes Against Humanity; Overlaps, Gaps, and Ambiguities in Contemporary International Humanitarian Law, Genocide, and Crimes Against Humanity); Chapter 5: Crimes Against Fundamental Human Rights (Slavery, Slave-Related Practices, and Trafficking in Persons; Apartheid; International Prohibition of Torture; The Practice of Torture in the United States: September 11, 2001 to Present); Chapter 6: Crimes of Terror-Violence (International Terrorism; Kidnapping and Hostage Taking; Terrorism Financing; Piracy; International Maritime Navigation and Installations on the High Seas; International Civil Aviation); Chapter 7: Crimes Against Social Interest (International Control of Drugs; Challenges in the Development of International Criminal Law: The Negotiations of the United Nations Convention Against Transnational Organized Crime and the United Nations Convention Against Corruption; Transnational Organized Crime; Corruption of Foreign Public Officials; International Criminal Protection of Cultural Property; Criminalization of Environmental Protection).

**The International Criminal Court in Search of its Purpose and Identity** Mar 02 2021 The International Criminal Court (ICC) is the first permanent international criminal tribunal, which has jurisdiction over the most serious crimes of concern to the international community as a whole: genocide, crimes against humanity, war crimes, and crime of aggression. This book critically analyses the law and practice of the ICC and its contribution to the development of international criminal law and policy. The book focuses on the key procedural and substantive challenges faced by the ICC since its establishment. The critical analysis of the normative framework aims to elaborate ways in which the Court may resolve difficulties, which prevent it from reaching its declared objectives in particularly complex situations. Contributors to the book include leading experts in international criminal justice, and cover a range of topics including, inter alia, terrorism, modes of liability, ne bis in idem, victims reparations, the evidentiary threshold for the confirmation of charges, and sentencing. The book also considers the relationship between the ICC and States, and explores the impact that the new regime of international criminal justice has had on countries where the most serious crimes have been committed. In drawing together these discussions, the book provides a significant contribution in assessing how the ICC's practice could be refined or improved in future cases. The book will be of great use and interest to international criminal law and public international law.

**Model(ing) Justice** Sep 20 2022 The International Criminal Tribunal for the former Yugoslavia (ICTY) was the first and most celebrated of a wave of international criminal tribunals (ICTs) built in the 1990s and designed to advance liberalism through international criminal law. Model(ing) Justice examines the practice and case law of the ICTY to make a novel theoretical analysis of the structural flaws inherent in ICTs as institutions that inhibit their contribution to social peace and prosperity. Kerstin Bree Carlson proposes a seminal analysis of the structural challenges to ICTs as socially constitutive institutions, setting the agenda for future considerations of how international organizations can perform and disseminate the goals articulated by political liberalism.

**Optimize Criminal Law** Dec 19 2019 The Optimize series is designed to show you how to apply your knowledge in assessment. These concise revision guides cover the most commonly taught topics, and provide you with the tools to: Understand the law and remember the details • using diagrams and tables throughout to demonstrate how the law fits together Contextualise your knowledge • identifying and explaining how to apply legal principles for important cases • providing revision advice to help you aim higher in essays and exams Avoid common misunderstandings and errors • identifying common pitfalls students encounter in class and in assessment Reflect critically on the law • identifying contentious areas that are up for debate and on which you will need to form an opinion Apply what you have learned in assessment • presenting learning objectives that reflect typical assessment criteria • providing sample essay and exam questions, supported by end-of-chapter feedback The series is also supported by comprehensive online resources that allow you to track your progress during the run-up to exams.

**Criminal Law** Jan 12 2022 A concise yet authoritative introduction to the subject, Criminal Law offers a stimulating account of the key topics in this area of law, illustrated through numerous case summaries. Exposition of the most recent case law and academic commentaries ensures a solid grounding in the core areas of a complex subject.

*A General View of the Criminal Law of England* Jun 24 2020

**Multilayered Structures of International Criminal Law** Feb 19 2020 This book discusses the multilayered legal structures concerning the regulation of crimes under international law. It covers both core crimes and other types of crime under international law, and examines relevant substantive and procedural rules alike. Pursuing such a comprehensive approach is essential to understanding the basic frameworks of international criminal law, since the varied perspectives on international crimes are connected to different systems of enforcement. Being aware of this interrelatedness is conducive to an in-depth examination of individual topics in both substantive and procedural aspects. On the basis of such an inquiry, this book concisely provides a systematic overview of international criminal law.

Criminal Law Dec 23 2022 Criminal Law offers a unique hybrid approach to learning criminal law. Most textbooks oversimplify the law by presenting the black letter law for major and defenses, but they rarely present any corresponding exploration of the gray areas that exist beyond the basic rules of law. Conversely, casebooks present numerous edited judicial opinions, often with context. Criminal Law takes the best from each of these approaches by merging textual pedagogy and case analyses into a coherent framework that includes legal history, social context, and public policy. Taking a historical approach, legal expert Henry F. Fradella presents the law as it evolved from English common law and compares it with the modern statutory approach to crimes set forth in the American Law Institute's highly influential Model Penal Code. After providing such comparative pedagogy for each crime or defense, Criminal Law presents 1-2 edited cases that allow the reader to contrast how the black letter law plays out in the real world. After each case, a series of questions challenge students to engage in critical thinking about the case and its implications as precedent. Finally, chapters contain a number of additional pedagogical features that focus on public policy concerns and statutory interpretation skills using penal laws from a variety of U.S. states.

Introduction to International Criminal Law, 2nd Revised Edition Jan 24 2023 Written by one of the world's pioneers and leading authorities on international criminal law, this text book covers the history, nature, and sources of international criminal law; the *ratione personae*; *ratione materiae*--sources of substantive international criminal law; the indirect enforcement system; the direct enforcement system; the function of the international criminal court; rules of procedure and evidence applicable to international criminal proceedings; and the future of international criminal law. This textbook is fully updated, comprehensive, easy to read, and ideally suited for classroom use. Also available as hardback: isbn 9789004264977

**Law for Computer Scientists and Other Folk Jun 05 2021** This is the first textbook introducing law to computer scientists. The book covers privacy and data protection law, cybercrime, intellectual property, private law liability and legal personhood and legal agency, next to introductions to private law, public law, criminal law and international and supranational law. It provides an overview of the practical implications of law, their theoretical underpinnings and how they affect the study and construction of computational architectures. In a constitutional democracy everyone is under the Rule of Law, including those who develop code and systems, and those who put applications on the market. It is pivotal that computer scientists and developers get to know what law and the Rule of Law require. Before talking about ethics, we need to make sure that the checks and balances of law and the Rule of Law are in place and complied with. Though it is focused on European law, it also refers to US law and aims to provide insights into what makes law, law, rather than brute force or morality, demonstrating the operations of law in a way that has global relevance. This book is geared to those who have no wish to become lawyers but are nevertheless forced to consider the salience of legal rights and obligations with regard to the construction, maintenance and protection of computational artefacts. This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is offered as a free PDF download from OUP and selected open access locations.

**Treatise on International Criminal Law Sep 08 2021** Since the adoption of the Rome Statute of the International Criminal Court in 1998, international criminal law has rapidly grown in importance. This three-volume treatise on international criminal law presents a foundational, systematic, consistent, and comprehensive analysis of the field. Taking into account the scholarly literature, not only sources written in English but also in French, German, Italian, Portuguese, and Spanish, the book draws on the author's extensive academic and practical work in international criminal law. This third volume offers a comprehensive analysis of the procedures and implementation of international law by international criminal tribunals and the International Criminal Court. Through analysis of the framework of international criminal procedure, the author considers each stage in the process of proceedings before the ICC, including the role of legal participants, the scope of jurisdiction, and the enforcement of sentences. The full three-volume treatise addresses the entirety of international criminal law, re-stating and re-examining the fundamental principles upon which it rests, the manner it is enacted, and the key issues that are shaping its future. It is essential reading for practitioners, scholars, and students of international criminal law alike.

Criminal Law Manual Aug 19 2022

Regulating Deviance Aug 27 2020 The criminal attacks that occurred in the United States on 11 September 2001 have profoundly altered and reshaped the priorities of criminal justice systems around the world. Domestic criminal law has become a vehicle for criminalising 'new' terrorist offences and other transnational forms of criminality. 'Preventative' detention regimes have come to the fore, balancing the scales in favour of security rather than individual liberty. These moves complement already existing shifts in criminal justice policies and ideologies brought about by adjusting to globalisation, economic neo-liberalism and the shift away from the post-war liberal welfare settlement. This collection of essays by leading scholars in the fields of criminal law and procedure, criminology, legal history, law and psychology and the sociology of law, focuses on the future directions for the criminal law in the light of current concerns with state security and regulating 'deviant' behaviour.

**Shocking the Conscience of Humanity Jul 06 2021** The most commonly cited justification for international criminal law is that it addresses crimes of such gravity that they "shock the conscience of humanity." From decisions about how to define crimes and when to exercise jurisdiction, to limitations on defences and sentencing determinations, gravity rhetoric permeates the discourse of international criminal law. Yet the concept of gravity has thus far remained highly undertheorized. This book uncovers the consequences for the regime's legitimacy of its heavy reliance on the poorly understood idea of gravity. Margaret M. deGuzman argues that gravity's ambiguity may at times enable a thin consensus to emerge around decisions, such as the creation of an institution or the definition of a crime, but that, increasingly, it undermines efforts to build a strong and resilient global justice community. The book suggests ways to reconceptualize gravity in line with global values and goals to better support the long-term legitimacy of international criminal law.

Pour une nouvelle codification du droit pénal Jan 20 2020 This is a revised and enlarged edition of report 30 proposing a new Code of Substantive Criminal Law for Canada. The proposed Criminal Code expresses the essential principles of criminal law and rules of general application. It defines most of the crimes of concern to a modern industrialized society. At the same time, it drops archaic provisions but addresses modern day social problems like pollution and terrorism. Title I is the general part containing rules of general application; Title II contains most of the crimes against the person; Title III enumerates most of the crimes against property; Title IV lists crimes against the natural order; Title V deals with crimes against the social order; and Title VI encompasses crimes against the governmental order.
